COMMITTEE APPROVAL LETTER  
Project # 90005453

April 9, 1991

William W. Parmley, M.D.  
Box 0124

Dept.: Cardiology  
Phone No.: x1326

Study Title: Effects of Passive Smoking on Experimental Atherosclerosis

APPROVAL NUMBER: A2387-05453-02

Approval Date: 04/02/91  
Expiration Date: 04/01/92

This number is a UCSF Committee on Animal Research (CAR) number which should be used for ordering animals for this study. This number may only be used by the principal investigator and those listed as participants included in the protocol and should be referenced in any correspondence regarding this study. The committee must be notified in writing of any changes to the approved protocol including changes in personnel.

Please distribute the final approved protocol to all individual participants so that they are familiar with the procedures that have been approved. Please remember that all personnel are to be fully trained before undertaking any procedures independently.

If you have any questions, please contact the Committee on Animal Research office at (415) 476-2197, Suite 11, Laurel Heights or Box 0962.
